

DR. MUHAMMAD SHAFIQUE

CAREER OBJECTIVE

- I am an energetic, ambitious and diligent person who loves to take care of patients and has a passion for medicine. Working as a healthcare professional is the most desirable choice have made in my life. For this career, I always choose responsibility, diligence and curiosity as my three most important values*

WORK EXPERIENCE

General Medicine

- As a house officer in the general medicine department, I gained comprehensive experience in diagnosing and managing a diverse range of medical conditions. My role involved conducting thorough patient assessments, formulating treatment plans, and coordinating care across various specialties. I developed strong clinical skills, including interpretation of diagnostic tests and procedures, as well as effective communication with patients and their families. My time in the general medicine department solidified my commitment to providing compassionate, evidence-based care to improve patient outcomes.

Accident, Emergency & ICU

- As a house officer I have learned to manage acute coronary syndromes, arrhythmias, hypertensive crises and cardiac arrest, Blunt Trauma, Head Injury and Burns. During my stay in ICU I have taken care of patients with Ventilator support. He I have done various lifesaving procedures like Endotracheal Intubation, Chest Intubation, CVP Line insertion & Venous cut down under supervision. I am confident to look after patients in any sort of emergency.

Plastic and Reconstructive Surgery

- As a house officer, I have performed various invasive and non-invasive procedures like maintenance of IV line Nasogastric Intubations, Urinary catheterizations, minor grafting and contracture release. I have assisted during several major surgical procedures like cleft lip and palate, hypospadias, nasal reconstructions and eyelid reconstruction in Operation theater.

General Surgery

- As a house officer in the general surgery department, I developed a solid foundation in surgical principles and patient care. My responsibilities included assisting in a wide range of surgical procedures, managing pre-operative and post-operative care, and collaborating closely with attending physicians and nursing staff. This experience honed my skills in critical thinking, problem solving, and effective communication, while instilling in me a strong commitment to delivering high-quality healthcare services.
