ABOUT ME

Highly motivated and detail-oriented microbiologist determined to enhance my capabilities as well as expand my knowledge and skills.

My former working experience is of diagnostic lab in sections of microbiology, hematology, pathology and phlebotomy. However my current research is in virology because I find it relatively more interesting and challenging. Looking forward to learn new skills and excel in my field professionally by improving my research and practical skills.

WORK EXPERIENCE

INTERNEE

ABWA Hospital and research center (Internship)

- Certified (1-7-21 - 1-9-21)
- 2 months working experience in Diagnostic Lab under sections Microbiology, Biochemistry, Pathology and Blood Bank at ABWA Hospital & Research Centre Khurrianwala

EXPERTISE
